Education

Hindustan Institute of Technology and Science | Chennai, India

- **B.Tech - Artificial Intelligence and Data Science** | July 2023 – Present
- **Relevant Coursework:** Python, SQL, Machine Learning & AI, Model Evaluation, Data Analysis

Little Champion CBSE School | City, State

- **Class 6 to 12** | 2016 – 2023

Experience

IICHe-Student Chapter, AMU | City, State

- **Research Intern - MATLAB and AI/ML in Chemical Engineering** | January 2025 – February 2025
- **Explored** AI/ML integration in chemical engineering simulations and optimizations to identify process improvements.
- **Utilized** MATLAB for data-driven modeling and system optimization within specialized engineering frameworks.

Plasmid Technologies | City, State

- **Artificial Intelligence Intern** | June 2024 – August 2024
- **Developed** machine learning models and AI applications to address real-world technical challenges.
- **Implemented** innovative problem-solving techniques to streamline project planning and the development lifecycle.

Freelancer.com | Online

- **Freelancer** | April 2023 – Present
- **Delivered** diverse technical services across both Windows and macOS environments for global clients.

Leadership & Activities

Best Diplomats | Geneva, Switzerland

- **Participant** | Dates
- **Engaged** in a United Nations simulation program focusing on global diplomacy and international relations.

Global Youth Exchange Program | China

- **Representative for India** | May 2024 – June 2024
- **Represented** India in an international cultural and innovation exchange program to foster global collaboration.

Skills & Interests

- **Technical:** Python, SQL, Power BI, Microsoft Excel, RESTful APIs, Groq API, K-Means Clustering, MATLAB.
- **Language:** English (Fluent), Tamil (Fluent), Hindi (Reading and Writing).
- **Laboratory/Certifications:** ADAS - Advanced Driver Assistance System (BOSCH), AI with Python.
- **Interests:** Global diplomacy, technology for social impact, and building multilingual communication tools.
